Great Plains Communications awards Callaway Public Schools a \$5,000 Grant to purchase equipment for “The Cube” broadcasting system

April 29, 2015 (Blair, Neb.) - Great Plains Communications presented Callaway Public Schools with a \$5,000 grant in late April, 2015. The money will be used to purchase equipment for what they call “The Cube” broadcasting system. “The cube” system will be used to broadcast programs and events throughout different areas of Callaway High School. For instance, if a musical is going on in the auditorium, students and parents will be able to view the performance from different areas of the building over television monitors.

Darin Ellis, Math Teacher at Callaway Pubic Schools had this to say. “We are excited and appreciative that our students and staff have these opportunities provided by Great Plains Communications. This technology will greatly enhance our curriculum.”

This grant is part of the Great Plains Communications “Commitment to our Schools” program which provides nearly \$35,000 annually to schools and students in the form of grants and scholarships.

“Great Plains Communications is committed to the ongoing advancement of education in the communities we serve,” said Casey Garrigan, Marketing and Sales Relations Manager. “Investing in the education of young people is an investment in the future of the community. We are honored to give back in this way.”

About Great Plains Communications

Great Plains Communications is the largest privately owned telecommunications company in Nebraska and is headquartered in Blair, Nebraska. At the core of their service offering is a 5,000 mile regional fiber network encompassing the state of Nebraska and extending into Colorado, Iowa, Kansas, Minnesota, South Dakota and Wyoming.

They currently provide 90+ Nebraska communities with High-Speed Internet, High-Definition Cable Television, and Local and Long Distance Telephone services. Their business solutions range from traditional voice and data products to installation and support of large business networks with scalable Ethernet solutions. The company also prides itself on their progressive approach to accommodating the unique needs of regional and national telecommunications carriers, LECs, ISPs, and wireless carriers.

Great Plains Communications recently celebrated their 105-year anniversary, and are in their fourth generation of family ownership.
