Great Plains Communications appoints Marty Vanderheiden as Enterprise Sales Representative

Blair, Nebraska, February 6, 2018 - (Blair, Ne.) - Great Plains Communications, the largest independent telecommunications provider in the state of Nebraska is pleased to welcome Marty Vanderheiden to the position of Enterprise Sales Representative. Mr. Vanderheiden will be focused on establishing, developing, and maintaining enterprise customer relationships in the Omaha, Nebraska area, and will report to Jeff Mason, Enterprise Sales Manager.

Todd Foje, CEO of Great Plains Communications stated the following. "We're pleased to welcome Marty to Great Plains Communications. His extensive experience and ability to nurture strong professional relationships will be great assets to our company. We are confident he will help us add to the growing list of business customers in the Omaha market."

Mr. Vanderheiden brings over 20 years of experience in sales and the technology industry with aptitude in wireless technology, networking, hardware, and software solutions. Prior to joining Great Plains Communications, he served as Chief Executive Officer for a full-service information technology training company. Marty graduated from Arizona State University with a Bachelor of Science in Agribusiness.

Marty had this to say. "I'm excited to work with Omaha customers on finding the best solutions for their growing technology needs. Working for Great Plains Communications means I can offer customers exceptional products and services from a Nebraska-based company with over a century of experience."

About Great Plains Communications

Great Plains Communications is the largest privately-owned telecommunications provider in Nebraska. The company provides over 90 communities across the state with high-speed Internet, Cable Television, and Voice services. Business solutions range from traditional and cloud based voice and data products to installation and support of large business networks with scalable Internet and Ethernet solutions.

At the core of their service offering is an extensive 9,500-mile regional fiber network including over 300 fiber miles in the Omaha Metro area. The network offers community access rings, last-mile, and middle-mile solutions, fully supported by their 24x7x365 Network Operations Center. The company is financially strong with over a century of experience providing reliable and innovative solutions. For more information visit www.gpcom.com.
