

Great Plains Communications Named Best Internet Provider in Nebraska

GPC recognized for the second year as the state's top choice.

Blair, Nebraska, October 29, 2024 – [Great Plains Communications](#) (GPC), the leading Midwestern telecommunications provider delivering fiber-driven services over their 18,000 mile fiber network, is pleased to announce that CNET Magazine has named GPC the "Best Internet Provider in Nebraska" for the second year in a row. This honor underscores GPC's commitment to delivering the fastest, most reliable fiber internet with straight-forward pricing, powered by their robust fiber network. CNET Magazine commented, "Our take, I'd almost always recommend a fiber internet connection when available and, in Nebraska, Great Plains Communications is your best chance of getting one."

Great Plains Communications owns and operates one of the largest fiber optic networks in the Midwest, investing year over year to keep pace with rising customer capacity, product and technology demands to provide an exceptional customer experience to their residential, business and carrier and wholesale client base.

"We are honored to be recognized for the second year in a row as Nebraska's Best Internet Provider by this prestigious publication," said Todd Foje, CEO of Great Plains Communications. "This acknowledgement is a direct reflection of our company and employees' dedication to driving progress with the power of fiber and delivering the fastest, most reliable products and services to our Nebraska customers, regardless of where they live or do business."
